6	M8 Spring washer A4	14589
4	M8 Locknut A4	14590

1-AxisEndBracket

Basic bracket

*We hope you enjoy your new setup.*

## Assembly guide

The first step is to figure out where to place your FT Wall Mount 1-Axis. Have in mind that this 1-AxisEndBracket will correspond to the centre of your terminal when installing.

(The 4 bolts shown in the image are not included)

The second step is to assemble the basic bracket onto the FT Touch Computer with 2 pcs. of M8X20 A4 Bolts. The Bolts should be assembled as shown in the image above for best results.

The third step is to assemble the FT Touch Computer with the Basic bracket onto the 1AxisEndBracket with 4 pcs. of M8X20 A4 Bolts.

(In this step you can adjust the viewing angle horizontally as you wish)

Fourth step is to secure the bolts with the locknuts for extra safety.

Your terminal is now installed on the FT Wall Mount 1-Axis in your preferred position. The fifth and final step is to connect the cables, so your FT Touch Computer can assist you in the daily production.

# Technical solutions for your needs right now - and in the future

## Let us improve and empower your future production

With Foodteq you will get a partner who, specializes in creating robust computer solutions tailored for demanding work environments like the food industry. We combine exceptional industrial components to craft computers with impressive performance and extended lifespan. These solutions can be applied across various areas including productionlines,

data monitoring, artificial intelligence, and process control. Whether it's optimizing production or enhancing control processes, our products are designed to deliver reliable performance. Whether the cooperation will be on a big scale or a small scale.

*Foodteq can adapt to your needs all over the world.*
